Notes:

- See the table, **General and M&P Corporate Income Tax Rates**, for the rates that apply to CCPCs on active business income above \$500,000 (\$600,000 for Saskatchewan).
The \$500,000 federal small business threshold also applies in all provinces and territories, except in Saskatchewan, where the CCPC threshold is \$600,000; therefore, in Saskatchewan, the combined rate that applies to active business income from \$500,000 to \$600,000 is 15.5%.
- See footnote 2 to the table, **Federal Corporate Tax Rates**, for a description of the federal small business deduction threshold and situations in which the small business deduction is reduced.
These reductions also apply generally for the purposes of all provincial/territorial small business deductions, except that:
 - New Brunswick and Ontario do not parallel the federal measure that phases out the small business deduction for CCPCs that earn passive investment income exceeding \$50,000 (on an associated basis) in a previous taxation year, for taxation years beginning after 2018; and
 - for Quebec, the \$10 million threshold is based on paid-up capital (on an associated basis), instead of taxable capital.
- For recent changes to the federal small business deduction, see footnote 2 to the table, **Federal Corporate Tax Rates**.
- Rates on investment income are 23.67% higher than the general rates for 2022 (see the table, **General and M&P Corporate Income Tax Rates**), because:
 - CCPC investment income does not benefit from the 13% federal general rate reduction; and
 - the rates on investment income include a 10 $\frac{2}{3}$ % tax that is refundable when the CCPC pays taxable dividends.
See also "Refundable Investment Tax" in the table, **Other Federal Corporate Tax Rates for 2022**.
- See footnote 3 to the table, **Federal Corporate Tax Rates**, for temporary federal corporate rate reductions that apply to eligible income from zero-emission technology M&P activities for taxation years beginning after 2021.

CCPC rate (M&P)**	4%	3.2%	March 26, 2021

* Quebec's CCPCs:

- are required to meet the "activities" test (i.e., percentage of activities in the M&P and primary sector) or "hours paid" test to be eligible for the province's regular CCPC rate; and
- will be subject to a tax rate between Quebec's regular CCPC rate and its general tax rate, if neither test is met.

** Eligibility for Quebec's CCPC M&P rate depends on the percentage of the CCPC's activities attributable to M&P and the primary sector (i.e., agriculture, forestry, fishing and hunting, mining, quarrying, and oil and gas extraction) (based on M&P and primary sector labour costs).

If the percentage is:

- 50% or more, the CCPC M&P rate applies;
- under 50% and more than 25%, the CCPC M&P rate increases proportionately (straight line) to the regular CCPC rate or the general Quebec rate, depending on the circumstances; or
- 25% or less, the rate is between the regular CCPC rate and the general Quebec rate.

15. Recent and planned Saskatchewan changes follow:
