

# Individual Marginal Rates for 2022

(Prepared from information available as of June 10, 2022)

These tables show combined federal and provincial (or federal and territorial) marginal tax rates – the percentage of tax paid on the last dollar of income, or on additional income. They reflect the enhanced federal basic personal amount (see footnote 2 below, and note 6 under **Non-Refundable Personal Tax Credits — 2022**). These tables do not take into account provincial health levies (see **Provincial Health Care Premiums — 2022**).

- (1) The table does not take into account the low-income tax reductions in British Columbia, New Brunswick, Newfoundland and Labrador, Nova Scotia, Ontario and Prince Edward Island, or the Manitoba Family Tax Benefit (for low-income taxpayers), which may affect the rates shown.
- (2) The table reflects the enhanced federal basic personal amount (BPA). For 2022, the additional benefit of \$1,679 is gradually clawed back when taxable income (TI) exceeds \$155,625, and eliminated when TI reaches \$221,708. The marginal rates for TI between \$155,625 and \$221,708 reflect this claw-back (except for the non-resident rates, see note 4 below). Yukon has paralleled this federal enhancement.
- (3) When two dividend rates are indicated, the lower rate has a negative federal and/or provincial/territorial component. A negative federal component shelters other income from federal tax and a negative provincial/territorial component shelters other income from provincial/territorial tax. As a result, the combined federal and provincial/territorial rate that applies depends on the level of the taxpayer's other income, with the higher rate applying if the taxpayer has no other income.
- (4) A non-resident can claim the BPA only if all or substantially all (i.e., 90% or more) of the non-resident's worldwide income is included in his or her TI earned in Canada for the year. Non-resident rates for interest and dividends apply only in limited circumstances. Generally, interest (other than most interest paid to arm's length non-residents) and dividends paid to non-residents are subject to Part XIII withholding tax.
- (5) The bracket relates to Nova Scotia's enhanced BPA, which is gradually clawed back when TI exceeds \$25,000 and eliminated when TI reaches \$75,000. The marginal rates for TI between \$25,000 and \$75,000 reflect this claw-back.
- (6) The bracket relates to surtaxes levied by Ontario or Prince Edward Island, and assumes that only the BPA is available.
